The UNIX-haters Handbook - Simson Garfinkel - 1994

This book is for all people who are forced to use UNIX. It is a humorous book--pure entertainment--that maintains that UNIX is a computer virus with a user interface. It features letters from the thousands posted on the Internet's "UNIX-Haters" mailing list. It is not a computer handbook, tutorial, or reference. It is a self-help book that will let readers know they are not alone.

The Writer's Guide to Weapons - Benjamin Sobeck - 2015-07-09

When it comes to writing weapons, most authors shoot from the hip--and miss. The Writer's Guide to Weapons will help you hit your target every time. Firearms and knives have starring roles in a wide range of genres--crime, thriller, war, mystery, Western, and more. Unfortunately, many depictions of weapons in novels and film are pure fiction. Knowing the difference between a shotshell and a slug, a pistol and a revolver, or a switchblade and a butterfly knife is essential for imbuing your story with authenticity--and gaining popularity with discerning readers. Inside you'll find: • An in-depth look at the basics of firearms and knives: how they work, why they work, what they look like, and how to depict

them accurately in your stories. • The biggest weapons myths in fiction, TV, and film. • A surefire guide for choosing the correct weapon for your characters, no matter their skill level, strength, or background. • A review of major gun and knife laws, weapons safety tips, and common police tactics. • "The Hit List," showcasing the most popular weapons for spies, detectives, gunslingers, gangsters, military characters, and more. • Examples highlighting inaccurate vs. accurate weapons depictions. • An insightful foreword by David Morrell, the award-winning creator of Rambo. Equal parts accessible, humorous, and practical, The Writer's Guide to Weapons is the one resource you need to incorporate firearms and knives into your fiction like a seasoned professional.

The Cambridge Handbook of Workplace Training and Employee Development -

Kenneth G. Brown - 2017-10-19

With comprehensive coverage of topics related to learning, training, and development, this volume is a must-have resource for industrial and organizational (I/O) psychologists, human resource (HR) scholars, and adult education specialists. Brown provides a forward-looking exploration of the current research on workplace training, employee development, and organizational learning from the primary point of view of industrial organizational psychology. Each chapter discusses current practices, recent research, and, importantly, the gaps between the two. In analyzing these aspects of the topic, the chapter authors both present the valuable knowledge available and show the opportunities for further study and practice.

block Ford engine. Parts inspection, diagnosis, reconditioning, and assembly are outlined in simple text. Hundreds of photos, charts, and diagrams visually walk you through the entire rebuild. You'll be able to completely disassemble your engine, recondition the block and cylinder heads, then reassemble and install the engine in your vehicle. There's even a section on how to perform tune-ups to maximize performance and economy. Sections on parts interchanging will help you identify all parts and determine which ones can and can't be swapped. This is truly a "hands-on" book. Don't put off your project any longer. Start rebuilding your small-block Ford today!

is more than just an addictive strategic game, it is an art. In poker you don't just play the cards, you actually play against another person. Once you learn the game, you can come up with many clever ways to outsmart your opponents. The fact that you can make so much money defeating a player, just adds to its appeal. Once you learn how to play poker like a pro, you won't believe how many easy players are out there who have zero poker skill simply because they think poker is a game of luck. This is actually also one of the reasons why winning money in poker is so easy. With so many players playing poker for fun, or simply so many players just having no clue how to play the game strategically, it makes easy picking for sharks who know what they are doing. With the Advanced Concepts of Poker, that you will learn in this book, we continually earn the kind of money most people can't imagine.

Towards A Westphalia for the Middle East -

Patrick Milton - 2019-02-01

It was the original forever war, which went on interminably, fuelled by religious fanaticism, personal ambition, fear of hegemony, and communal suspicion. It dragged in all the neighbouring powers. It was punctuated by repeated failed ceasefires. It inflicted suffering beyond belief and generated waves of refugees. No, this is not Syria today, but the Thirty Years' War (1618-48), which turned Germany and much of central Europe into a disaster zone. The Thirty Years' War is often cited as a parallel in discussions of the Middle East. The Peace of Westphalia, which ended the conflict in 1648, has featured strongly in such discussions, usually with the observation that recent events in some parts of the region have seen the collapse of ideas of state sovereignty--ideas that supposedly originated with the 1648 settlement. Axworthy, Milton and Simms argue that the Westphalian treaties, far from enshrining state sovereignty, in

fact reconfigured and strengthened a structure for legal resolution of disputes, and provided for intervention by outside guarantor powers to uphold the peace settlement. This book argues that the history of Westphalia may hold the key to resolving the new long wars in the Middle East today.

The Glass Castle - Jeannette Walls - 2006-01-02

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet

American Spies - Michael J. Sulick - 2020-09-01
A history of Americans who spied against their country and what their stories reveal about national security What's your secret? American Spies presents the stunning histories of more than forty Americans who spied against their country during the past six decades. Michael Sulick, former head of the CIA's clandestine service, illustrates through these stories—some familiar, others much less well known—the common threads in the spy cases and the evolution of American attitudes toward espionage since the onset of the Cold War. After highlighting the accounts of many who have spied for traditional adversaries such as Russian and Chinese intelligence services, Sulick shows how spy hunters today confront a far broader spectrum of threats not only from hostile states but also substate groups, including those

conducting cyberespionage. Sulick reveals six fundamental elements of espionage in these stories: the motivations that drove them to spy; their access and the secrets they betrayed; their tradecraft, or the techniques of concealing their espionage; their exposure; their punishment; and, finally, the damage they inflicted on America's national security. The book is the sequel to Sulick's popular *Spying in America: Espionage from the Revolutionary War to the Dawn of the Cold War*. Together they serve as a basic introduction to understanding America's vulnerability to espionage, which has oscillated between peacetime complacency and wartime vigilance, and continues to be shaped by the inherent conflict between our nation's security needs and our commitment to the preservation of civil liberties. Now available in paperback, with a new preface that brings the conversation up to the present, *American Spies* is as insightful and relevant as ever.

Now available in paperback, with a new preface that brings the conversation up to the present, *American Spies* is as insightful and relevant as ever.

The Manchurian Candidate - Richard Condon - 2013-11-25

The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was

brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." —Chicago Tribune "Condon is wickedly skillful." —Time

Prescription: Baby - Jule McBride - 2010-12-27
They'd handled hundreds of babies together...and now they'd made one of their own! Ford Carrington had everything—a sterling reputation as Maitland's finest pediatric surgeon, beautiful women on his arm and enormous wealth. He didn't realize he wanted anything more, until he discovered he was about to become a father... Katie Topper loved her work...and Ford Carrington, though he didn't know she existed outside the operating room. But when they abandoned their roles and turned to each other in one night of passion, there was no

going back to the way they had been. And going forward would present challenges that neither one of them could have imagined...

Balanced Scorecard Step-by-Step - Paul R. Niven - 2002-10-15

This book explains how an organization can measure and manage performance with the Balanced Scorecard methodology. It provides extensive background on performance management and the Balanced Scorecard, and focuses on guiding a team through the step-by-step development and ongoing implementation of a Balanced Scorecard system. Corporations, public sector agencies, and not for profit organizations have all reaped success from the Balanced Scorecard. This book supplies detailed implementation advice that is readily applied to any and all of these organization types. Additionally, it will benefit organizations at any stage of Balanced Scorecard development. Regardless of whether you are just contemplating a Balanced Scorecard, require assistance in linking their current Scorecard to management processes, or need a review of their past measurement efforts, Balanced Scorecard Step by Step provides detailed advice and proven solutions.

American Light Trucks and Utility Vehicles, 1967-1989 - J. "Kelly" Flory, Jr. - 2020-01-15

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

Reinventing Your Life - Jeffrey E. Young - 1994-05-01

Learn how to end the self-destructive behaviors that stop you from living your best life with this breakthrough program. Do you • Put the needs of others above your own? • Start to panic when someone you love leaves—or threatens to? • Often feel anxious about natural disasters, losing

all your money, or getting seriously ill? • Find that no matter how successful you are, you still feel unhappy, unfulfilled, or undeserving? Unsatisfactory relationships, irrational lack of self-esteem, feelings of being unfulfilled—these are all problems that can be solved by changing the types of messages that people internalize. These self-defeating behavior patterns are called “lifetraps,” and *Reinventing Your Life* shows you how to stop the cycle that keeps you from attaining happiness. Two of America's leading psychologists, Jeffrey E. Young, Ph.D., and Janet S. Klosko, Ph.D., draw on the breakthrough principles of cognitive therapy to help you recognize and change negative thought patterns, without the aid of drugs or long-term traditional therapy. They describe eleven of the most common lifetraps, provide a diagnostic test for each, and offer step-by-step suggestions to help you break free of the traps. Thousands of men and women have seen the immediate and long-term results of the extraordinary program outlined in this clear, compassionate, liberating book. Its innovative approach to solving ongoing
